Current Issues & the Constitution
Listen Live
Each Wednesday
1PM EST

currentissuesandtheconstitution.com

1. Answered: – If the government let us keep our own health insurance doesn't that defeat the purpose of the Affordable Health Care Act and the push toward socialized medicine?
2. Answered – Why is Congress not doing what the people that put them in office want?
3. Audience question answered – What do you think of the discussions with Iran and nuclear weapons? Does it not weaken the perception of the US as a Super Power when France has to step in and address this?
4. Professor Wilson declares the only country that has the wealth, strength and power to combat evil in this world it is the USA.
5. Discussion of Checks & Balances – mostly in Articles 1 & 2
6. Discussion about public figures who break the law. Rule of Law: Article 1 – Constitutional Principal 5th & 6th.
7. Update: Kathleen Sebelius says the website will be a “work in progress” beyond the deadline date – Deputy Chief Information Officer said it would not be fixed.
8. Insurance- Funding of this will come from taxpayers if insurance companies can't make money we will subsidize them.

Notes:

- Serious Moment – 70% of Majority upset with the law
- Most want to delay the law for one year
- Discussion about the 10th Amendment – no mention of health care in the Constitution.
- Whistle Blowers – Census bureau released info that the unemployment numbers were tampered with to help Obama get re-elected.
- Abortion Cases – Amend: 1-3-4-9 the case for privacy in 4 and 9
- Amendment 14 – equal protection of law
- Liberal Justices used the word “liberty” in Roe vs. Wade
- No one is talking about the 10th Amendment
- OYEZ – Abortion Cases – search for cases on abortion
- Thanksgiving Day
