Felice Gerwitz

Dr. Ron Paul is the author of "The School Revolution A New Answer for Our Broken Education System."

His new website for home schoolers is:

[RonPaulCurriculum.com](http://RonPaulCurriculum.com)

We hope to ask as many of these questions as possible.

1. Why do you think homeschooling is the answer to a failed educational system?
2. What are specific examples of the work students will do on a daily basis with the curriculum you propose?
3. Can self-motivation and self-taught students really begin at grade 5?
4. What is the timeline of your curriculums build-out? Currently it is 2015.
5. Common-core mandates are a sore point for many homeschool parents—how will your curriculum address these issues?
6. Could you site some examples as to how your curriculum encourages students to become self-educated?
7. Will you be attending homeschool curriculum conventions in the future?
8. How will your curriculum be an improvement over what homeschoolers are already doing?
