4.) Book

It all started with this book: "Von der Urangst zur Verbundenheit - Streptokokokkinum, der Homöopathische Wegbereiter". Since its publication in May 2022, it has become a homeopathic bestseller in German speaking countries. It is currently available in it's sixth German edition and is recommended as a basic work for anyone who wants to work with the remedy. It is written for everyone, including laypeople and homeopathic newcomers. However, homeopathic practitioners and professionals will also benefit greatly from the book, as it will help them to understand the remedy better and use it more confidently for themselves and their patients.

An English translation of the book is in preparation. It is expected to be available at Similimum-Publishing House from Summer 2026: https://similimum-publishing.com/
